## Q3 - Explore The Space

- \$150M Market Cap
- Upcoming more goals...

# DRAWING INTERFACE

We have an upcoming drawing interface, where, with purposely limited tools, you will be able to create your own NFTs!

Our vision is based on creativity. You yourself Draw and we make it happen. Our specially designed drawing interface with purposely limited drawing tools will give you the experience to be an artist. Think of your own mind.

Digital artists deserve great pay and we want to facilitate it.

We will also be pushing talented artists in a way that gives them organic exposure to their craft.
