

WHITEPAPER

COLLIE INU

WWW.COLLIE-INU.COM

COLLIEONOMICS

4%

AUTO-LIQUIDITY

A 4% tax fee is automatically collected for every transaction made with Collie Inu. The Liquidity Pool is being filled automatically with every buy and sell.

2%

HODL REWARDS

We appreciate all investors. For this reason as an incentive to HODL, therefore we have implemented a 2% reward scheme to incentivize the holding of Collie Inu.

Every sell of Collie Inu will take a 2% extra fee, which will be distributed to holders.

4%

MARKETING

One of the most important wallets is the marketing wallet. As you know, a token without good marketing is not a token which we want. We have set up marketing strategies and therefore 4% goes to the future of our loved token!

2%

BUYBACK

Every token has pump times and also dump times, we are trying to prevent huge dumps. To make the chart look better, we have implemented a 2% buyback tax. This is going to help us to manage dumps and to buy the dip.

INTRODUCTION

COLLIE INU

Collie Inu - One of the most loved dogs of the world. Adorable, smart and kind. If you like Shiba, then you have to love Collie Inu.

Our NFT vision is based on the actual limited designer pieces hype. Dior, Gucci, Louis Vuitton and a lot more. Brands which you have heard in TV shows, in rap songs, and at almost every other place in the world. The more a clothing piece or a pair of sneaker is limited, the more the value of your NFT will increase. Our Collie will not longer be naked ;)

Your opportunity to get one of the most hyped dog coins on the Binance Smart Chain. Be prepared when our first NFTs are being published, we also can't wait to make our first donation. Be part of us - Be part of humanity.

Together with a great team and a based, well known dev in the game, we build up an deflationary token which is dedicated to land you on the moon with a huge package of sweetness.

WHY COLLIE INU?

TIME EFFICIENT

- Time is one of the key elements in our lives. Especially when it comes to financial transactions, lack of existing money transaction speed, companies or individual users are facing delays. This leads to a slowdown in activities. Collie Inu offers a solution to cover such bad processes.

SAFE & ANONYMOUS

- Security is another very important point on which today's world stands. By using Collie Inu you can make secure payments be done, which will create confidence to the community. Our priority is to maintain the trust of users.

DECENTRALIZED & DISTRIBUTED

- Applications are the future need for higher efficiency and cost reduction. A worthless coin is your solution for decentralized Payments. Collie Inu cannot be controlled by the government or any specific person.
